Using the apparatus of the state TOWN OF DANVILLE NH, thru Attorney COLBY T. GAMESTER (usufructury's) has executed a judgment and claim (exhibit A) against a United States asset and against United States interests in the property listed herein ROCKINGHAM COUNTY REGISTRY OF DEEDS. This was done in express contradiction to the assignment of interest (UCC File#130222603686) and the provisions of your Title 12 USC 95a (2), ratified by your Title 12 USC 95b and TWEA at your US Title 50 Appendix section 5 and article(s) 1, 2, 3, 4, 36, 38, 137, 145, 134, 23, 33, 37, 41, 46, 45, 43, 44, 31, 34, 36, and 38 of General Orders 100 (Lieber Code) and 12 U.S. OP Atty. Gen. 182 (1867)(elective franchise). The United States (the indispensable party) by and through the US attorney is/will be provided notice of this adverse claim This Steward remains in rightful possession of the property for its protection and quiet enjoyment..

Additionally, ever since the very first declaration of bankruptcy, the economy and thus security of the union is continuously threatened by "foreign interests" so to counter these threats to its survival and in accordance with the constitution, United States is authorized under Article 1 Section 8 Clause 10 to take all measures to insure its citizens ("protected persons" as martial law extends to all property and "persons" be they members of the hostile government or aliens to it (Lieber Code Article 7) and interests from acts of belligerency and insurrection, which are violations of the law of nations.

This threat to national security is basically a "fear of default / failure" under international duties and obligations of United States thus exposing the people to risk of exposure to public and private bankruptcy and liquidation (war) and with exercise of duty international law to protect the citizens from acts of terrorism, such as economic paralysis, thus threatening the nation with "death". The United States, in an act of divine inspiration bought / purchased ANY and ALL anyone who was born on these lands will ever do AND set up a means by which anyone in the world could do the same all supported by Law of Nations and defended by the Constitution under Article 1 Section 8 Clause 10.

"...if the thing make punishable is one which the United States are required by their obligations to use due diligence to prevent, it is an offense against the law of nations. "(Hamdan Brief)...

United States by way of article 7 of Lieber Code extension of martial law has extended not only its jurisdiction but also its protection all those "person(s) and properties by making them subject to its martial law and in keeping with its duties under international law; Law of Nations book 2 article 104 extension of hospitality, to afford any foreigner perfect security as far as depends on him rendering each one of the people now a "trust protector" and a "capital contributor"... self governing themselves while their fruit goes into the nation in fulfillment of the pledge of the Declaration of Independence and thus an asset of the nation instead of an enemy of the state.

Pursuant to and in harmony with Law of Nations book 1 article 196 right of man to secure his affairs, Law of Nations book 2 article 104 extension of hospitality and under Lieber Code Article 134 pledge of your "fruit" or "usufruct" to the United States assists in defense the host nation from these "most wealthy capitalist" in this time of emergency to help ensure "national independence" (national security) in fulfillment of Law of Nations article 105 book 2 duty obligation of a foreigner; allowing United States to fulfill its international duties under Hague Article 43 restoration of public order and safety and allow for the administration of the "public estates" (NAME) under the rules of usufruct in accordance with Article 55 of Hague administration of the public estates and United States Constitution under article 1 section 8 clause 10 Constitutional duty to national security defense now must protect and defend its Article 1 Section 8 Clause 17 interest acquisition in discharge of duty under 14th Amendment to not question this public debt obligation.

All that is left is for the people to accept Lieber Code article 2 "peace treaty", as martial law does not end with the hostilities, it continues until proclamation or by way of "special mention by way of a treaty of peace wherein the occupying army remains as a condition of the same".

If one gets in the way, is it not a violation of your 15 USC 1 impediment of contract and Lieber Code article 46 interference with the proper administration of government as the matter is now a 14th amendment public debt obligation of a Lieber Code article 38 indemnification in service of an article 1 section 8 clause 17 interest acquisition authorized under article 1 section 8 clause 10 Constitutional duty to national security defense via exercise of Social Security Act 1936 authorized by your Congress in support of duties under Law of Nations book 2 article 104 extension of hospitality and Hague Article 43 restoration of public order and safety (which is Social Security) evidenced by the registration of the birth event securing lien of property and "person" in operation of article 1 section 8 clause 10 Constitutional duty to national security defense of and article 134 of Lieber Code pledge (which is Vital Statistics) with acceptance of the offer for your 12 USC 95a (2) / Trading with the enemy TWEA at your US Title 50 Appendix Section 5, offer of safe harbor in fulfillment of duty under Law of Nations book 2 article 105 defense with voluntary surrender of property or interest under your 31 USC 3713
